

USNIC Named to DOE Nuclear Energy Advisory Committee

The U.S. Nuclear Industry Council (USNIC) has been appointed to the U.S. Department of Energy's (DOE) Nuclear Energy Advisory Committee (NEAC).

The DOE's Office of Nuclear Energy announced the new appointment this week of 13 new science, business and nuclear industry leaders to the advisory committee.

NEAC meets biannually to advise the Secretary and the Assistant Secretary for Nuclear Energy on national policy and scientific aspects of nuclear issues of concern to DOE while providing Periodic reviews and recommendations on DOE's nuclear programs as well as stakeholder input and long-range plans, priorities, and strategies related to the DOE nuclear energy portfolio.

The Council is the leading U.S. business consortium advocate for nuclear energy and promotion of the American supply chain globally. Composed of over 80 companies USNIC represents the "Who's Who" of the nuclear supply chain community, including key utility movers, technology developers, construction engineers, manufacturers and service providers. USNIC encompasses eight working groups and select task forces. For more information visit www.usnic.org.
