USNIC Joins U.S. Industry Delegation at 61st IAEA General Conference

A 29-member company industry delegation, including the U.S. Nuclear Infrastructure Council, capped a three-day program in Vienna, Austria for the annual meeting of the International Atomic Energy Agency (IAEA) General Conference from September 18 - 22. The U.S. Industry Delegation was organized under the auspices of the U.S. Department of Commerce's International Trade Administration.

The U.S. industry program included a Policymaker Roundtable with U.S. Energy Secretary Rick Perry and U.S. Nuclear Regulatory Commission Chairman Kristine Svinicki, which was co-chaired by the USNIC. The U.S. Industry Delegation mission included bilateral meetings with 14 country delegations and a "Taste of USA" reception hosted by the USNIC adjacent to the "American Innovation" themed United States Pavilion.

The IAEA General Conference is composed of 168 representatives of all member states of the agency. The General Conference meets annually to consider and approve the Agency's program and budget along with the consideration of a range of global issues.

About USNIC

The United States Nuclear Infrastructure Council (USNIC) is the leading U.S. business consortium advocate for nuclear energy and promotion of the American supply chain globally. Composed of nearly 100 companies, USNIC represents the "Who's Who" of the nuclear supply chain community, including key utility movers, technology developers, construction engineers, manufacturers and service providers. USNIC encompasses seven working groups and select task forces. For more information visit www.usnic.org.
